

## MINI 297 SERIES SLIM-LINE VERTICAL CONTACT TOASTER

297 Series

### PERFECT CARAMELIZATION & BUN TEMPERATURE:

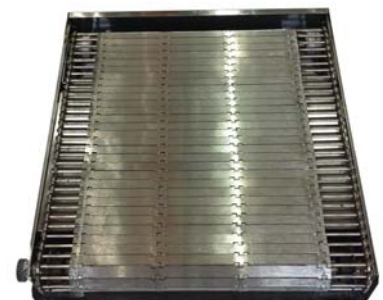

Prince Castle's 297 series Slim Line Bun Toaster now comes with a **SMALLER** footprint!

The Mini 297 provides all of the reliable features of the original Slim Line Bun Toaster in addition to new and improved features such as a stainless steel conveyor belt and a reduced size. The stainless steel conveyor belt transfers heat to the bun surface quickly and efficiently and the robust construction is designed to last the lifetime of the toaster. This permanent solution saves you from having to replace costly rubber belts used on other manufacturer's toasters. The new, smaller design saves valuable counter top space which provides added flexibility in the restaurant.

All Mini 297 toasters are packaged with a non-stick release sheet. Optional accessories include air flapper and heat shields. Accessory Kits can be ordered separately. Please refer to installation instruction for further details.

### STANDARD FEATURES:

- Compact design saves counter space
- Patented stainless steel conveyor belt
- Indicator light for notifying the operator that the toaster is ready to use
- Adjustable platen temperature up to 315°C / 600°F
- Adjustable bun compression controls
- Two lane platen design for bun crowns and heels
- Bun ramp for landing zone
- Capacity of 750 buns per hour at 16 seconds toasting time/ 1000 buns with 12 seconds toasting
- One year parts and labor warranty (non-stick release sheet not included )

3/25/16

## MINI 297 SERIES SLIM-LINE VERTICAL CONTACT TOASTER

### OPTIONAL ACCESSORIES:

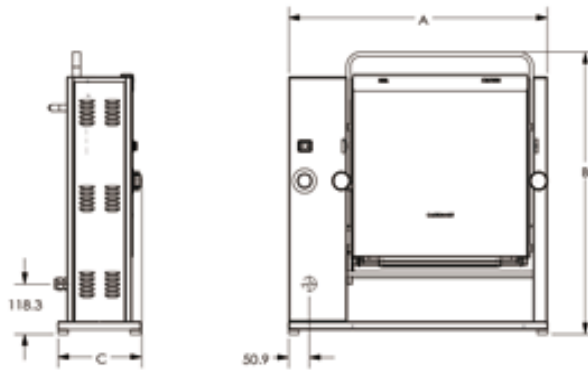

- Energy Saving Air Flapper - Prince Castle part - 297-011A -Simply snap on the toaster to prevent heat loss and increase the bun temperature by up to 3°C while reducing power consumption.

- Heat Shield – Prince Castle part-297-012A Protects operators by providing a barrier between the restaurant employee and the outer surface of the toaster. Two pre-cut screw holes make installation easy.
